

# SAINTSTRONG

We are excited to welcome you and your family to Maryville University! Although move-in may look different this year, we are here to make your experience as smooth as possible. Please keep this checklist easily accessible on your phone or print a copy prior to arriving on campus.

## PRIOR TO ARRIVING ON CAMPUS

### HEALTH SCREENING

All students and their guests assisting with move-in, must complete the [Health Screening Survey](#).

**You and your guests will receive a conformation email with a green check mark if you are approved to come to campus. Please have this confirmation ready to present at check-in.**

If you are experiencing any COVID-19 symptoms (fever, chills, cough, shortness of breath, fatigue, muscle or body aches, headache, new loss of smell or taste, sore throat, congestion or runny nose, nausea, vomiting or diarrhea) that cannot be explained by another condition:

- You must remain at home and should not come to campus for move-in. You will be able to participate in your classes online.
- Notify the University using the [Health Screening Survey](#).

- You must remain off-campus until meeting the following conditions as recommended by the CDC and are officially cleared to return to campus activities and in-person classes by Maryville's Office of Health and Wellness:
  1. Fever-free without the use of fever reducers for 3 consecutive days
  2. Symptoms have improved
  3. 14 days have passed since symptoms first appeared.
- Once you are cleared to return to campus activities, Residential Life will work with you to schedule a move-in time.

## ■ CONSENT FORM FOR COVID-19 TESTING

All students must complete the [Consent Form for COVID-19 testing](#) prior to arriving on campus.

- Once completed, you will receive an email confirmation. Please have this confirmation ready to present at check-in.
- If you are younger than 18, your parent or legal guardian will need to sign the form as well.

## ■ ARRIVAL TIME TO CAMPUS

All students have been assigned a move-in time. All residential students must check in on-campus and be tested prior to moving in. Please arrive to campus no earlier than 30 minutes prior to your appointment. This helps spread out traffic across the day and avoid wait times for testing. All traffic must enter campus via Conway Road.

**The testing center will take its last appointments at 6:00pm. If you arrive on campus after 6:00pm, you will not be able to move into your assigned housing until you can be tested the following day.**

## SAINTS ID

The digital Saints ID is convenient, contactless and increases security for on campus purchases and residence entry. The digital Saints ID has officially replaced the Maryville University plastic ID card. Use Saints ID on your iPhone, Apple Watch or Android devices for contactless campus purchases and to enter your residence.

This is a requirement to access your space and must be completed prior to your arrival on campus. It's recommended to have the app installed and ID programmed 24 hours prior to your arrival on campus, since it can take approximately that long for the reader to register your phone and digital ID. If your phone does not support the technology required to have the Saints ID, contact Public Safety. If you need to still activate your Saints ID, simply follow the instructions on [Maryville.edu/MySaintsID](https://www.maryville.edu/MySaintsID).

If you have questions or concerns regarding your Saints ID reach out to [ssc@maryville.edu](mailto:ssc@maryville.edu).

## PACKING

When packing your belongings, make sure you can easily access what you would need for a minimum 14-day period. This will be necessary if you test positive and intend to isolate on campus. Items you will need to include: enough clothes, toiletries, and medications for at least 14 days; computer, charging cords, any items you may need to begin coursework online; bedding; towels; and any other items you will need to be comfortable for the first two weeks.

# UPON ARRIVAL ON CAMPUS

All residential students must check in on-campus and be tested prior to moving in. Please arrive to campus no earlier than 30 minutes prior to your appointment. All traffic must enter campus via Conway Road. Follow the directional signs to the check-in lots. At check-in you will need to show Health Screening confirmations for all students and guests and consent form for Covid-19 testing for students.

- Students and their guests are not permitted to move belongings into their residential room until the mandatory COVID-19 test is completed and a negative result is received.
- Guests accompanying students for move-in must remain in their car or outdoors until the student receives a test result.
- Students and guests must wear face coverings while on campus and must maintain 6 feet of physical distance whenever possible.

## TESTING PROCEDURES

- You should be prepared to provide your full name when entering the Simon Center for testing. You are encouraged to bring your mobile phone with you so you can stay in communication with your guests regarding the status of your testing. Estimated time for testing and results is 15 minutes.
- Guests are not permitted to wait inside the testing space at Simon Center or to enter other campus buildings while awaiting test results. Guests are encouraged to consider taking a walk around campus, wait in one of our outdoor tented areas (outside Donius University Center, Walker Hall, and Gander Hall), or remain in their vehicle.
- When you get to the front of the line, please text your guests to be on standby. In the event that you test positive you may want to discuss next steps with them. Your guests should wait in their car.
- When it is your turn for testing, you will sit at a testing station with a representative from InHouse Physicians, our testing provider, who will swab the inside of your nose and then test the swab. It will take up to 15 minutes to get your test results. You are required to remain in the testing station until your results are received.

## ■ AFTER TESTING IS COMPLETE

If you test negative, you will receive a paper notification of your results that you will need to show when you check into your residential space. At this point, you can return to your vehicle and proceed to your move-in location.

If you test positive, a Maryville representative will provide a private space for you to talk through your options. Options include:

1. Going home with your belongings, starting the semester online, and moving into your assigned housing space after the Health and Wellness Office clears you to do so — after a minimum of 14 days.
2. Moving into alternative, isolation housing on campus with your belongings, starting your courses online, and moving into your assigned housing with your belongings after Health and Wellness clears you to do so — after a minimum of 14 days.
3. Students may also choose, at their own cost, to use a local storage and moving company to store their belongings until they are cleared to move into their residential room and assist with moving their belongings.
